The Headquarters Library

Volume 25 • March 2017

Photo Editing with Pixlr Express

Looking for an easy way to edit family and vacation photos before summer rolls around? Join us for this class on March 20 at 3:00 p.m. at the Headquarters Library's Computer Classroom to learn how to use Pixlr Express, a free online photo editing application. We'll cover the basics, like cropping and color adjustment, along with some of Pixlr Express's more creative uses. Bring a USB drive or external hard drive with photos to edit so you can practice on your own pictures.

We're 'Making' Moves

In late January a Makerspace Survey was made available through the Spartanburg County Public Libraries website. The purpose of this survey was to introduce the concept of library makerspaces and gain invaluable insight into the types of maker-based programs and services that you'd like to see in the library.

In the next few months you may notice that we're shifting things around and introducing new programs and technology. The information provided through the survey will play a tremendous role in helping us to ensure that we're 'making' the best space for you!

We received great feedback, including suggestions for maker-based activities that we'd never considered! Of course, there were some favorites and these are your Top Five Maker-Related Interests:

1. 3D Printing
2. Art Classes
3. Photography
4. Calligraphy
5. Pottery
