Libraries Closed

All branches of the Spartanburg County Public Libraries will be closed Sunday, April 5, 2026.

National Library Week

This year National Library Week takes place April 19 – 25, 2026. Your library system offers everything from books, DVDs and magazines to eBooks, downloadable books and graphic novels. We also offer a wide variety of programs for children, teens, and adults as well as meeting rooms and even homebound and bookmobile services for those that can't make it into a branch library location. We also have many additional resources available on our website. During National Library Week make plans to stop by your local branch library to pick up a free SCPL car magnet to show your support for the libraries. SCPL car magnets will be available while supplies last. Visit our website to learn more about all the Spartanburg County Public Libraries have to offer.

April showers bring May flowers. Is your garden ready? Check out these helpful gardening books for everyone from beginners to experts. These and more can be found in our nonfiction area, call number 635.

Events at Inman Library

Adults

Wednesdays in April
10:30am
30/30 Gentle Exercise
Program

Stay healthy with 30 minutes of low-impact cardiovascular exercise followed by 30 minutes of gentle yoga taught by registered nurse, DJ Liner. The charge for the class is \$2.00 per person and open to adults 18+.

Fridays in April
10am
Inman Yarn Club

Drop by the Inman Library to knit (or crochet) with friends. This social knitting group meets every Friday morning, 10:00 a.m. to 12:00 p.m. Knitting/crochet needles and yarn will be provided, or you can bring your own. Adults ages 18+, no registration required.

Wednesday, 4/8
at 3pm
Crafternoon: Learn to
Macrame

Ever wanted to learn to make macrame? Join us as we make beautiful art for your wall and take a kit home with you. Limited to the first 15 signups online starting April 1.

Teens

Thursday, 4/9

Homeschool: Super Cold
Science with Roper Mountain
Science Center

Roper Mountain Science Center joins us for some super cold science. In this supercool lesson, we will use liquid nitrogen to show how solids, liquids and gases are affected by extreme changes in temperature. Participants will learn how water is different from most other materials and watch the properties of materials change before their eyes. Space is available to the first 40 participants. This activity is most suitable for the 6-12 age group.
